Chairman Message

Creativity Paths Engineering Consulting (Creativity Paths) has a sole objective to efficiently provide the international standard and state-of-the-art Consultancy Services in the field of Project Monitoring, Engineering, Designing, Project Management, Contract Management, Cost Consultancy, Health, Safety & Environment (HS&E), Claim Management & its Advisory Services, Project Procedures and Plans as these are the crucial sectors and have decisive role for successful completion of the projects

Creativity Paths has a competent team of comprehensive experienced professionals and specialists, who shall proficiently undertake and complete the aforementioned consultancy services.

Since its establishment in 2011, Creativity Paths has successfully completed many projects, thus, it has many clients. Details of all these are provided in the subsequent sections of this Profile and its Website.

In view of competence and experience of Creativity Paths, as the Head of the organization, I certainly commit to all the concerns that my firm shall commence and complete all the consultancy services as stipulated in this profile with absolute professionalism for the ultimate satisfaction of all the concerned parties.

Engr. Mohammed Al Mymuni
Chairman
Creativity Paths Engineering Consulting

Vision and Mission

Creativity Paths is committed to serve its valued Clients competently to achieve the followings:

Provide top class and globally recognized the consultancy services as listed in the subsequent sections of this profile.

Deploy adequately qualified professionals and specialists for orderly commencement and completion of the projects/tasks.

At all times keeping the projects on track (free from discrepancies/lapses) to complete them within time and budget.

Creativity Paths is possessing absolute command, proficient expertise and experience to provide the listed below Consultancy Services to its valued Clients:

Project Monitoring

Creativity Paths has exclusive and comprehensive experienced experts in the specialized and unique Consultancy Services of "Project Monitoring" and the team has successfully completed many mega projects worth of multi Billion SAR. Therefore, it is firmly assured that Creativity Paths is highly capable to perform monitoring services for commencement, execution and completion of Projects within time and budget. Project Monitoring Services of Creativity Paths shall be enormously beneficial for the Clients, who shall engage these Services.

- a. **Creativity Paths' Project Monitoring Services are broadly classified into the following categories:**
 - i. New Construction Projects for Banks and Real Estate Developers (as the Lenders/investors) and to the Project Owners to ensure orderly commencement, prosecution and completion of the projects.
 - ii. Due Diligence of Project Site, Project Documents and Key Stakeholders' competence and this shall enable to take decision for the required remedial actions to safeguard their investments in the project.
Further, the outcome of Due Diligence, shall make the investors familiar with the shortcomings in the projects and alert them to go for the investment in the project or not.
 - iii. **Operation and Maintenance (O&M) or Facilities Management** of mega Facilities such as Airports, Malls, Group of Hotels, Hospitals, Commercial Buildings, etc. to monitor to ensure that the functional stakeholders (Operator of O&M, O&M Contractors, Facilities Management Consultants, etc.) to perform their contractual obligations efficiently.

b. Creativity Paths pledge to its valued Clients to undertake and execute all the required Project Monitoring Elements and the notable of them are:

- i. Monitors for correctly and completely preparation and implementation of all the Project Documents (Work Schedules, Drawings, Plans, Manuals, etc.) including all Contracts & Agreements.
- ii. Ensure sourcing & engaging of competent functional stakeholders (Consultants, Contractors, Subcontractors, Suppliers, etc.).
- iii. Make sure orderly mobilization of the project's Functional Stakeholders such as Consultants, Contractors, Suppliers and Owners of the Project.

- iv. Monitoring of all the construction proceedings i. e. Risk and Quality Control, implementation of all HS&E's requirements, Contractual Rights and Obligations, Non-Conformance Reports (NCRs), correct Progress Billings, Testing & Commissioning (T&C) and timely accomplishment of intermediate and final Milestones.
- v. Monitor to mitigate all the obstacles at the Project Site in timely manner.
- vi. Ensure that all the functional stakeholders are performing efficiently and provide recommendations as deemed necessary.
- vii. Keep the project on track at all times, avoidance of undue cost and delays i. e. timely completion within the budget.
- viii. The vital part is that Creativity Paths shall perform Project Monitoring Services with a very limited professionals at the project site and other required services shall be undertaken by its Home Office, thus, the Project Monitoring of Creativity Paths shall be extremely economical to the Client.

Creativity Paths plays a multilateral role in a Project Management and provide value added services from the Concept of Project Phase until its completion and the listed below are our some of the salient objectives:

- a. Efficiently manage project according to the client's objectives and create win-win situation according to their requirements.
- b. Establish real values and they shall be clearly visible at every stage.

- c. Confirms for functional and financially viable project finished within timeline and in agreed cost and in line with the best quality.
- d. Minimizing the risks and adding value to the projects through our comprehensive knowledge and experience.
- e. Emphasis on management in accordance to client's requirements by preparation of budget, scheduling, procurement, contracts and highlighting the risks.
